Comments

(Set forth by above question #, if applicable.
Use "Additional Comments" Sheet, if needed)

File #: 95A-HQ-1043498

#1: With microscopic hair comparison, one cannot determine from the notes that the examination was conducted in an appropriate manner.

#2: Documentation is poor. The notes are not dated or initialed and are in pencil and not ink. The technician handling evidence on #30115001 did not document the recovery of hair from the Q items as stated in the report.
